Portfolio

PROFESSIONAL SUMMARY

QA Engineer with **QA internship experience** in **Manual Testing** and **Automation Testing**, with exposure to **Mobile Device Management (MDM)**. Worked with **Android device testing** and **Quantem**, a web-based MDM product, including **device management**, **policy workflows**, and **test-case execution**. Hands-on with **Playwright**, **JavaScript**, **automation script mapping**, **functional testing**, and **regression testing**.

EXPERIENCE

Manual & Automation Tester Intern – Annular Technologies

Jul 2026 – Oct 2026

Product: Quantem – Web-based MDM Product

- Performed **Manual and Automation Testing** for MDM workflows across **Android devices**, including device enrollment, configuration, policies, applications, security, connectivity, and kiosk workflows.
- Executed **functional, regression, sanity, and smoke testing**; identified missing test cases and mapped **automation scripts** to Quantem test cases.

Product: AI Testing Studio – AI-powered Testing Platform

- Tested a platform that analyzes Git repositories and generates **test scenarios, test cases, and automation scripts**.
- Developed and executed automated tests using **Playwright, JavaScript, and Cucumber/Gherkin**, and reported defects using **ClickUp**.

TECHNICAL SKILLS

Programming: JavaScript, Python

Automation: Playwright

Testing: Manual Testing, **Automation Testing**, Functional Testing, Regression Testing, Sanity Testing, Smoke Testing

QA: Test Case Design, Defect Tracking, SDLC, STLC

BDD: Gherkin, Cucumber

Domain: Mobile Device Management (MDM)

Database: MySQL (Basic Queries, Joins)

Tools: Git, GitHub, ClickUp, n8n

PROJECTS

SmartTestX – Playwright Automation Framework

GitHub

- Structured **Playwright automation framework** built with JavaScript and **Page Object Model (POM)**.
- Automates **OrangeHRM test cases** using reusable page actions, external test data, assertions, and automatic screenshots on test failures for debugging and maintenance.

Demo Web Shop Testing – Manual Testing Project

GitHub

- Designed and executed **100+ test cases** covering login, search, cart, checkout, and related workflows.
- Created **test scenarios, test cases, and defect reports** and validated functional workflows.

Email Cleaner Automation – Python / IMAP

GitHub

- Built a **Python automation tool** using IMAP to filter and process emails based on keywords and date conditions.
- Automated repetitive email-processing tasks and reduced **manual effort**.

ACHIEVEMENTS

Solved **130+ LeetCode problems**

LeetCode Profile

EDUCATION

Mother Teresa College of Engineering & Technology

2022 – 2026

B.E. Computer Science Engineering – CGPA: 8.0

Mother Teresa Matric Hr Sec School

2021 – 2022

Class XII – 69.3%

Infant Jesus Matric Higher Secondary School

2019 – 2020

Class X – 60.4%
